45 – 60 HP

NX SERIES

**EVERYTHING YOU NEED TO MAKE
HARD WORK SEEM EASY.**

Powerful? Check. Fuel-efficient? Check. All around awesome? Check. If you're looking for a 45 to 60 hp workhorse that'll get it done in style, we present you with the NX Series.

**Cab & ROPS Models
Synchro Shuttle or HST
Loaded with Features**

**Daedong® ECO Engine Technology
Hydraulic Independent PTO
Cruise Control (HST Models)**

Anti-Stall Function (HST Models)

When the "Anti-Stall function" is engaged, the tractor will protect itself from instant engine stall when there is momentary engine overload.

Single Lever Joystick

Front end loader work is made easier by the use of a single lever joystick. The lever returns to neutral when released. A float position allows the bucket free flotation over the ground surface.

Hydraulic Independent PTO

The standard rear PTO is easily engaged by the simple turn of a knob. A safety interlock prevents the engine from starting when the PTO switch is left on. All models come standard with a selectable manual or automatic PTO option. When the Auto PTO is engaged, the PTO will automatically shut off when the 3-point control is raised, eliminating exposure to the running implements.

Eco-Friendly Diesel Engine

The Common Rail Diesel Engine (CRDI) improves fuel efficiency while reducing noise levels. With this eco-friendly Tier 4 engine, the NX Series offers the operator a quiet work environment with powerful performance.

THE FUEL EFFICIENT AND RUGGED KIOTI NX SERIES

Fully-Featured HST Models

Featuring a performance proven, heavy duty HST drive, HST models deliver power smoothly and efficiently. The three range transmission (Hi/Mid/Low) with twin pedal operation, anti-stall function, cruise control and customizable response makes your job easier, smoother and safer.

Deluxe Suspension Seat

Ergonomically designed, adjustable suspension seat allows the operator to ride in comfort no matter what the task may be. A seat pocket on the back of cab models allows easy access for the operator's manual.

Ergonomic Joystick Lever

An ergonomically designed joystick lever for front loader operation is standard on NX Series tractors.

Turn Assist Control

The optional Turn Assist Control kit will drop the engine rpm by 10% automatically when turning sharply. This feature prevents the need to throttle down when turning at the end of a row as the unit will do this automatically.

Projection Head and Working Lamp

With LED projection head and working lamps, the operator will experience safer and easier operation in low light conditions.

True Speed Cruise Control

The electronic HST control system enables the tractor to maintain a set speed in various ground and load conditions. This is a very useful feature for work requiring a set speed for precise coverage or application.

HST Linked Pedal

When the HST linked pedal is engaged, the HST pedal and the engine rpm is synchronized. This reduces fuel consumption and simplifies tractor operation for a variety of utility and loader applications.

3-Point Hitch with Telescopic Lower Links & Stabilizers

Standard telescopic lower link ends and stabilizers allow the operator to easily connect & adjust a wide variety of 3-point implements. The standard rear 3-point control lever easily raises and lowers the lift arms from outside the tractor when attaching implements.

Deluxe Cab with Panoramic View

The comfortable cab interior minimizes operator fatigue even after a long work day. The large unobstructed windows provide a panoramic view for increased sight lines.

Power Steering with Tilt

Hydrostatic power steering minimizes the effort required to make tight, repetitive turns. The steering wheel tilts with the simple push of a lever, allowing easy adjustment to fit operator needs.

Air Conditioning System

The Cooling and Heating system, in cab models, will ensure comfortable working conditions for the operator year round.

Window Wiper

On cab models, the standard window wiper (rear optional) keeps the window free from rain and dust without blocking the operator's view.

Automotive Style Light Control Lever

An automotive style access lever controls headlights, horn and turn signals. Located on the side of the steering column for ease of access.

Front End Loader

The KIOTI KL6010 front end loader is specifically designed for the NX Series tractors, providing efficient performance with single lever joystick control. The KIOTI loader, with a built-in parking stand, is designed to be quickly and easily attached and detached. KL Series loaders utilize the tractor's hydraulic system, feature single-lever control with float and come with a bucket level indicator.

Backhoe

The KIOTI KB2485 backhoe lets you trench up to 94.4 inches deep with a bucket dig force up to 3,748 pounds. The KB2485 backhoe feature subframe mounting, responsive two-lever controls with exceptional feathering, hydraulic stabilizers, transport lock and a variety of standard and heavy-duty buckets.

Backhoe Specifications

MODEL	KB2485
A Digging Depth (Two Foot Flat Bottom)	94.4 in. (2,400 mm)
B Reach from Center Line of Swing Pivot	136.1 in. (3,460 mm)
C Loading Height (Bucket at 60°)	80.3 in. (2,040 mm)
D Maximum Leveling Angle	10°
E Swing Arc	180°
F Transport Height (Maximum)	92.9 in. (2,360 mm)
G Transport Overhang	50.4 in. (1,280 mm)
H Bucket Rotation	180°
I Stabilizer Spread (Down Position)	68.7 in. (1,745 mm)
J Stabilizer Spread (Up Position)	46.4 in. (1,180 mm)
K Angle of Departure	21°
Shipping Weight (Without Bucket)	1,102 lbs. (500 kg)
Bucket Digging Force	3,748 lbs. (1,700 kg)
Dipperstick Digging Force	2,205 lbs. (1,000 kg)
Operating Pressure	2,466 psi (170 bar)
